

# The Old Sawmill

He came to the Yampa Valley  
To run an old Sawmill,  
He's cut alot of lumber,  
And he is working still.

Art Maijala worked with a head of steam,  
But that is in the past,  
The mill is all electric  
and keeps it running fast.

From the forest, to the wagon,  
to the old sawmill,  
The lumber keeps a comin,  
And it may be always will.

To build a house of log  
Or a split rail fence  
Art Maijala's love of wood  
Will stand for decades hence.
